

Maija Ekosaari

I am a specialist in cultural heritage information management, currently employed by a project funded by Finnish Ministry of Education and Culture. Previously I have worked e.g. at the Finnish National Gallery and the National Board of Antiquities in Helsinki, as well as Museum Centre Vapriikki and Tampere Art Museum in Tampere, Finland.

I have studied in Finland and in the United States and hold an Associate Degree in Business Administration, Bachelor of Fine Arts in Design, and MA in Art History. At present, I am pursuing a Ph.D. in Information and Knowledge management at Tampere University of Technology. My research concerns the documentation, accessibility, and usability of museums' collections information. I am enthusiastic about putting all this theory to practice.

I joined ICOM and CIDOC in 1996 and have been a Board member of ICOM Finland and CIDOC. Since 2016, I have been co-Chairing CIDOC's Documentation Standards WG.
